

ICWIP 2014

Guidelines for Posters and Poster Advertisements

Posters

Posters should be a maximum of 4 feet wide x 3 feet high.

Choose your colour scheme carefully so that your text is easy to read.

Make sure your poster can be read easily from a distance of 2 m away.

Feel free to bring copies of handouts if you would like to provide people with more details than you can fit onto your poster. These can be handed out during your poster session.

The poster sessions and times when you need to put up your posters are:

1. August 6 poster session A and B, posters up before 8:30 on 6 August
2. August 8 poster session C, posters up after 2 August 7 and before 8:30 on August 8

All Country Posters (sessions A and B) must be taken down by 12:00 on Aug 7.

All Scientific Posters (session C) must be taken down by 17:00 on Aug 8.

Refreshments will be served during the poster sessions.

Poster advertisements

Presenters of posters will give an oral “poster advertisement” at the beginning of your poster session.

If you **do not** wish to present a poster advertisement, please email the conference organisers before July 21.

Poster advertisements will be strictly timed to last 3 minutes.

You may use no more than 2 slides to illustrate your presentation. The slides need to be in Powerpoint or PDF and compatible with Microsoft Office System.

Presentations will follow the same order as the order of poster abstracts in the programme book.

<p>Please hand in your poster advertisement on a USB drive for uploading at the registration desk when you register</p>
